

**Statement for our customers regarding EU Regulation 1935/2004/EC: 30.09.2025**

EST Edelstahl-Schneidtechnik GmbH specializes in cutting stainless steel sheets. The sheets we process are produced by various rolling mills. We stock these sheets and cut them according to your individual requirements.

Please note: If your order requires compliance with EU Regulation 1935/2004/EC ("materials and articles intended to come into contact with food"), we kindly ask you to inform us explicitly when placing your order. Only in this way can we ensure that we use suitable, certified material from a qualified rolling mill for your cut sheets.

We thank you for your cooperation and are available at any time for further questions.

Mit freundlichen Grüßen

Christian Hemetsberger
